PROFILE

Flutter Developer with hands-on commercial experience building mobile applications for real markets. Skilled in Dart, Bloc/Cubit, Firebase, and REST APIs. Currently pursuing a Bachelor's degree in Computer Engineering at Vistula University in Warsaw. Passionate about clean architecture, smooth animations, and delivering polished user experiences. All personal projects are available on GitHub.

WORK EXPERIENCE

Intern Flutter Developer — MyGo (Remote)

Oct 2022 – Mar 2023 | Uzbekistan

- Developed a regional taxi app for the Uzbek market, similar to Uber and Yandex Taxi
- Implemented Bloc and Cubit for state management across the app
- Collaborated with UI/UX and backend teams in an agile environment
- Stack: Flutter, Dart, Bloc, Cubit, REST API, Git

Intern Flutter Developer — Hilol-Nashr (On-site)

Jun 2022 – Jul 2022 | Uzbekistan

- Built the company's mobile app for the Uzbek Islamic content market
- Implemented Provider as the state management solution
- Worked with UI/UX and backend teams to deliver features on schedule
- Stack: Flutter, Dart, Provider, Firebase, Git
